

Military2Corp Workshop Testimonials

Following are testimonials received from workshop participants. All participants were former military officers who either recently left the military or were out for a short period of time 2 to 5 years or more than five years. Those who were out of the military were out in the workforce working in other positions for other companies and industries prior to their recent transition.

“Most military need more than just the TAP/TAMP programs, especially now when most of those getting out have been through actual combat situations.”
